American Breeds Of Beef Cattle

Aberdeen Angus cattle were first imported to Canada in 1860. The breed was strengthened with further imports from Scotland and the cattle have been registered by the Canadian Angus Association since 1905.

Angus | Canadian Beef Breeds Council

The Brahman is an American breed of zebuine beef cattle. It was bred in the United States from 1885 from cattle originating in India, imported at various times from the United Kingdom, from India and from Brazil; these included Gir, Guzerá, Indu-Brasil and Ongole stock. The Brahman has a high tolerance of heat, sunlight and humidity, and good resistance to parasites.

Brahman cattle - Wikipedia

Over 1000 breeds of cattle are recognized worldwide, some of which adapted to the local climate, others which were bred by humans for specialized uses.. Cattle breeds fall into two main types, which are regarded as either two closely related species, or two subspecies of one species. *Bos indicus* (or *Bos taurus indicus*) cattle, commonly called zebu, are adapted to hot climates and originated in ...

EDJE Cattle, listing of Cattle Producers in North America

Cattle is a word for certain mammals that belong to the genus *Bos*. Cattle may be cows, bulls, oxen, or calves. Cattle are the most common type of large domesticated hoofed animals. They are a prominent modern member of the subfamily Bovinae.. Cattle are large grazing animals with two-toed or cloven hooves and a four-chambered stomach. This stomach is an adaptation to help digest tough grasses.
