An Introduction to Behavioural Ecology. The theme, once again, is the influence of natural selection on behaviour - an animal's struggle to survive and reproduce by exploiting and competing for resources, avoiding predators, selecting mates and caring for offspring, - and how animal societies reflect both cooperation and conflict among individuals.

An Introduction to Behavioural Ecology - Google Books

An Introduction to Behavioural Ecology. However, if there is a large difference between the net energy supplied by two food sources, selection is more likely (Krebs and Davies 1993). Given that field voles live on low-energy, highly abundant food, they might be expected to be non-selective in their diet. ...
