IFRS 9 discusses the relevance of impairment loss to be accounted for at the time of initial measurement of the financial asset itself. The simplified approach under IFRS 9 helps an entity to quantify the life time losses for majority of receivables and contract assets, rather than spending time analyzing the initial 12 months' expected losses and review these on each reporting date.

Impairment of Financial Assets - Simplified Approach

- A simplified approach that is required for certain trade receivables and so-called "IFRS 15 contract assets" and otherwise optional for these assets and lease receivables.

IFRS 9, Financial Instruments - PwC

IFRS 17: A simplified approach? IFRS 17: A simplified approach? IFRS 17, the proposed new accounting standard for insurance contracts, is expected to be issued later this year. We outline our thoughts on the key challenges it presents non-life insurers.
