Rated 2 out of 5 by bls0416 from Not what expected We purchased this refrigerator when we built our home and the water dispenser stopped working just after the warranty expired. It seems to continue to freeze up so no water can be dispensed, only ice. When we reached out to the service department we were told that there was no known issues with this model (though it was noted on other models ...

The main controller board is the brains of the refrigerator so it can cause a number of issues if it is defective. If your GE refrigerator is not cooling consistently but the lights inside work then it is likely a main controller board problem.. Some customers complain that it'll cool sporadically and some not at all.

GE Refrigerator is Not Cooling? - You Can Fix It!

Recently my water dispenser simply quit working on my General Electric side-by-side refrigerator. We've had the GE refrigerator for roughly 5 years and never had this issue. The ice maker was still making ice so I knew it was still receiving water. The ice dispenser worked fine when tried to dispense water, I heard a click [...]
